

AUTOMATED DRUG MANAGEMENT SYSTEMS
FOR THE INPATIENT PHARMACY

HEALTHCARE
SOLUTIONS

Ensuring patient safety through operational excellence

Full medication management -from the dock to the bedside

Barcode Packaging

- > **PillPick™** (Pharmacy Robot) - Packager and over-wrap system for all oral and non-oral solids; tablets, capsules, vials, syringes, liquid cups and ampoules integrated with storage and dispensing.
- > **ATP-384** (High-Speed Strip Packager) - High capacity, high-volume, unit or multi-dose packager with innovative software features and lighted filling tray for improved patient safety.
- > **ATP-71** (Compact Strip Packager) - Affordable, compact, high-volume packager for all size hospitals.

Storage

- > **BoxPicker™** (Carousel Alternative) - Fully automated high-density storage with refrigerated options and USP 797 clean room compatibility.
- > **MedPickRx™** (Stock-by-Light) - Semi-automated, high-density storage solution with guiding light to minimize stocking errors. Store 100% of formulary in half the space.
- > **DrugNest** (Robotic Warehouse) - Automated high-density, multi-tasking and storage of barcoded unit doses, integrated with packaging and dispensing.

Dispensing

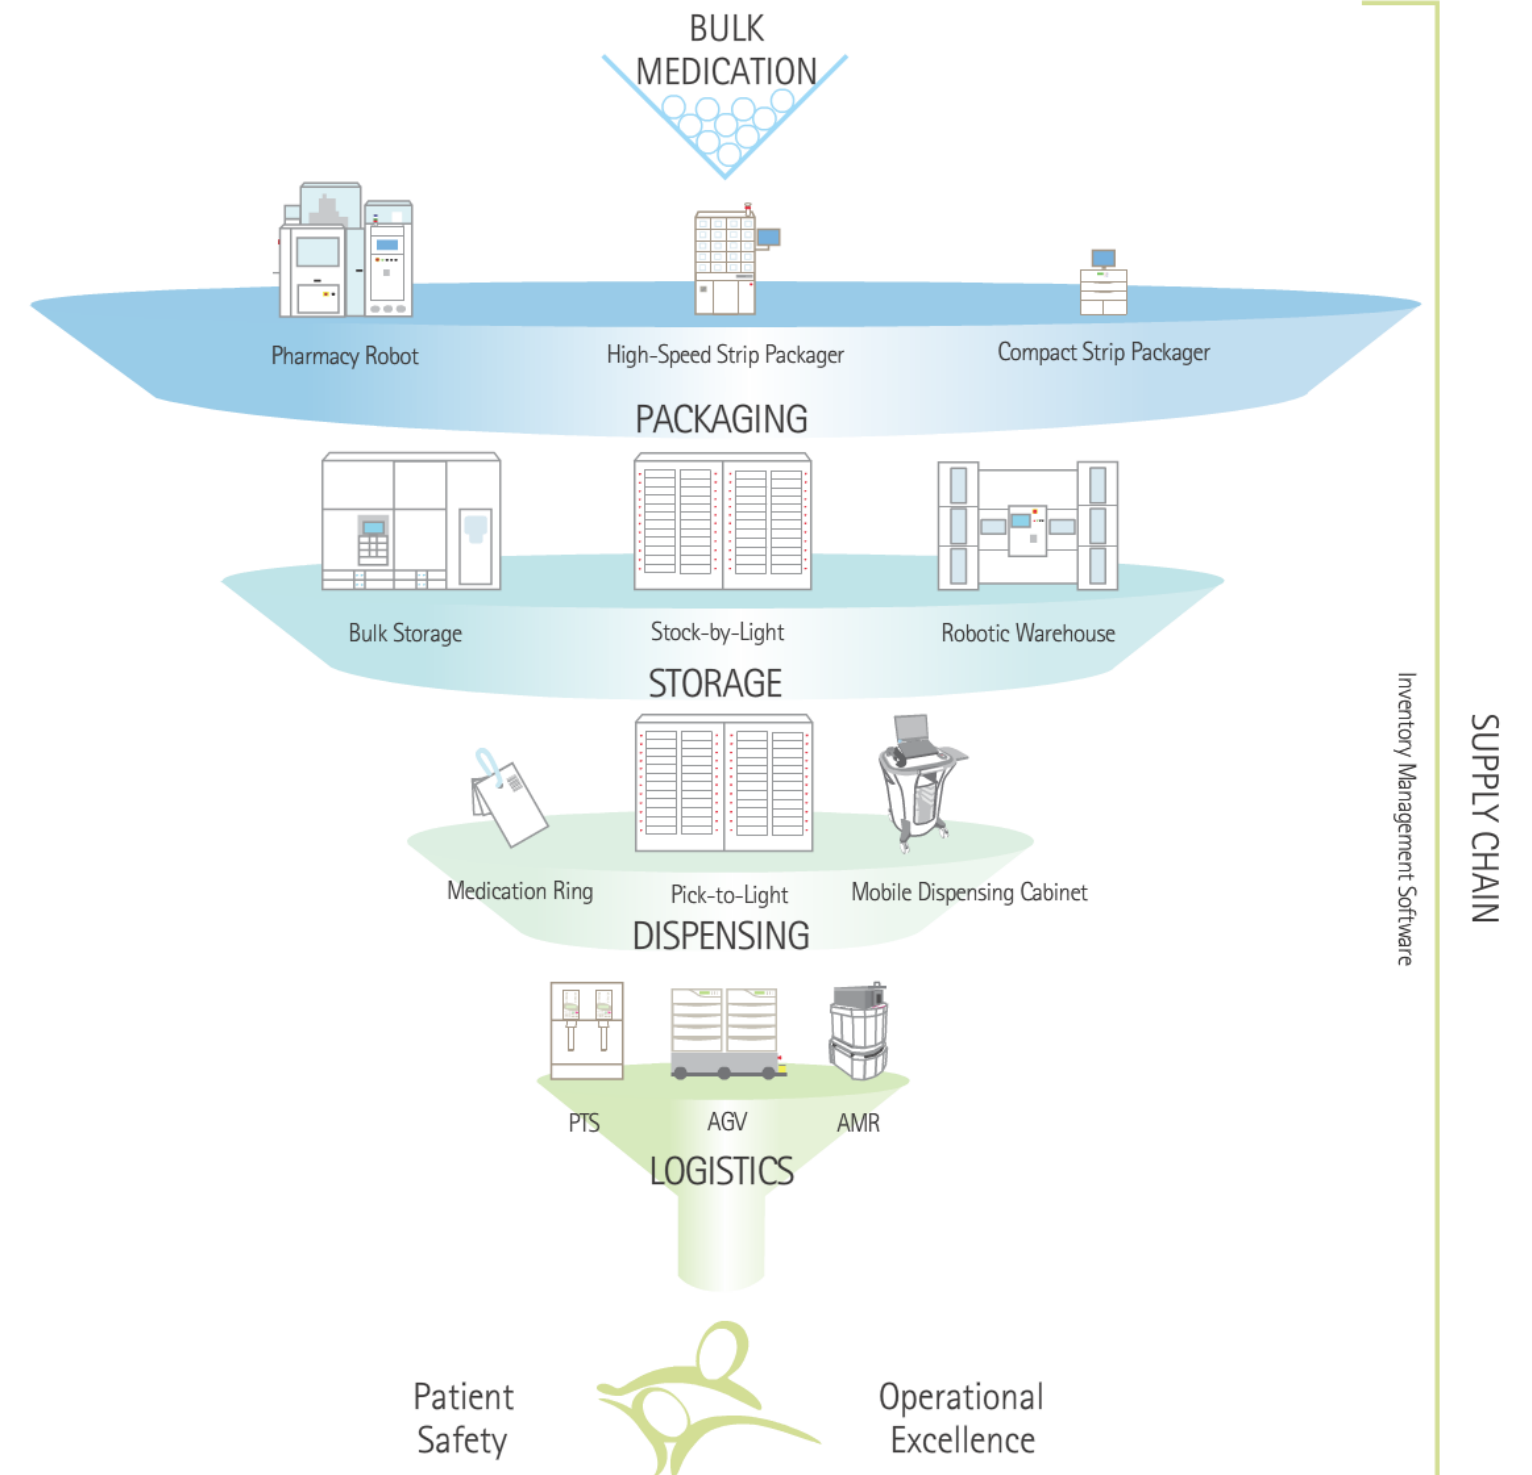

- > **PickRing™** (Medication Ring) - Sealed ring holding patient or cabinet-specific medications. Safest way to dispense medications.
- > **MedPickRx™** (Pick-to-Light) - High-density storage solution with guiding light to minimize picking errors.
- > **MedRover™** - Secure mobile dispensing cabinet for bedside administration and verification.

Logistics

- > **Pneumatic Tube Systems** - STAT delivery of drugs protected with secure access and carrier tracking for verification of delivery.
- > **Automated Guided Vehicles** - Secure, on-demand and scheduled bulk cart transport reduces labor and injuries, while ensuring an efficient workflow.
- > **Autonomous Mobile Robots** - Secure, on-demand and scheduled transport of medications and supplies.

Supply Chain

- > **Inventory Management Software** - Track and trace inventory through the entire supply chain, including 340B management.
