

SWISSLOG CUSTOMER SUPPORT BULLETINS

4-INCH ZIP N' FOLD™ CONTAINMENT POUCHES

Zip N' Fold pouches provide maximum protection from spills, whether transporting lab specimens or pharmaceuticals in a pneumatic tube system (PTS).

The "Clean Pouch" is clearly marked in green for the transport of pharmaceuticals and other non-biohazard materials.

The red biohazard identification label on the Biohazard pouch meets the strictest OSHA standards.

Ordering Information for the Biohazard Pouch

The biohazard pouch is available with or without the vacutainer insert and is sold in sets of five.

Pouch thickness: 12-mil thick vinyl pouch, 6-mil thick vinyl insert; Closure: Ziplock and Velcro tab pouch.

Five Small Biohazard Pouches with Inserts	(10.5" x 10.5")	076-1319-02
Five Small Biohazard Pouches without Inserts		076-1319-04
Five Inserts		076-1329-01
