TOP 10

REASONS YOU WANT MEDROVER

1. Increase nurse's time at the bedside by reducing trips to stationary medication cabinets.
2. Easily navigates through patient rooms crowded with cords, equipment and visitors.
3. Provides a closed loop medication administration system.
4. Reduces medication administration errors by electronically accessing one container at a time.
5. Safely stores patient and floor stock medications, including narcotics*, with triple-lock security and biometric authentication.
6. Extensive user activity and compliance reports available through a powerful reporting engine.
7. Works with existing bedside scanning software for providing medication verification.
8. Intuitive graphics and a touch-screen interface.
9. Long lasting lithium ion battery.
10. Cost-effective storage of medications reduces stationary cabinet capacity needs.
