Swisslog Introduces Carriers for Pevco™ Pneumatic Tube Systems

Denver, CO – Swisslog, a leading manufacturer and supplier of pneumatic tube systems for hospitals, now offers standard carriers designed for 6-inch and 4-inch Pevco™ and other non-Swisslog pneumatic tube systems.

Swisslog also offers 6-inch Eco-Seal™ leak-resistant carriers, red and yellow opaque colored carriers for easy identification of department-specific uses, and specially-designed clear top/black opaque bottom carriers designed for non-Swisslog manufactured systems. Swisslog's BacStop anti-microbial carriers contain an active ingredient embedded in the carrier plastic that eliminates most bacteria which come in contact with the carrier.

Swisslog has released a brochure that fully describes its family of carriers (CM #1217). Contact The Sun Kim for more information at 1-800-525-1841 x7864 or by email at the.sun.kim@swisslog.com. Learn more about Swisslog's pneumatic tube system, carriers and other components by visiting the company's website at www.swisslog.com, then click on Healthcare Solutions.
