

## SWISSLOG SPECIFICATIONS

### ATP-71 AUTOMATIC TABLET PACKAGER

The ATP-71 is a high speed packaging solution that offers the space saving convenience of an affordable "table top" packager with an unmatched capacity of up to 71 canisters. The system is highly reliable and easy to use—perfect for hospital pharmacies of any size.

### Features & Benefits

- > High storage capacity of up to 71 medications in a small, compact unit
- > Packaging flexibility – Small package sizes are available for loading of medication carts and for dispensing cabinet replenishment
- > High speed packaging - up to 45 packages per minute
- > Flexible barcode printing options available
- > Fast and easy filling and refilling of medications
- > Non-formulary medications are filled through unique removable external tray
- > Solution enables networking of multiple devices as part of an inventory management solution

# ATP-71 Component
