### **Swisslog Introduces Bin Liner for Pneumatic Tube System Stations**

Denver, CO – Swisslog, a leading global provider of automated material transport and pharmacy automation solutions for hospitals, introduces a bin liner for its six-inch TransLogic Pneumatic Tube System that provides easier spill cleanup of the station's interior.

The smooth, non-porous liner insert is easy to install and can be easily removed for cleaning. Its long-lasting seamless construction eliminates wear-prone station carpet and padding, which can be difficult to clean when spills occur. The station bin liner kit includes the station bin, station ramp cover, and hardware and installation instructions. Contact Swisslog Customer Support at 800-396-9666 for more information. Be sure to reference part number 56679701.

### **About Swisslog**

Swisslog is a global provider of integrated logistics solutions for warehouses, distribution centers, and hospitals. Its comprehensive services portfolio ranges from building complex warehouses and distribution centers to implementing Swisslog's own software. In addition, Swisslog provides intra-company logistics solutions for hospitals as well as software and consulting services in the field of supply chain management.

Swisslog's solutions optimize customers' production, logistics and distribution processes in order to increase flexibility, responsiveness and quality of service while minimizing logistics
