Methodist Charlton Medical Center installs Automated Pharmacy Store and Pick System

Denver, CO. - Methodist Charlton Medical Center in Dallas, Texas, became the first institution in the United States to install Swisslog's BoxPicker. Active in Europe for the past six years, the BoxPicker incorporates Swisslog's experience with inventory management and conveyors systems, established in warehouses globally, into an automated pharmacy store, pick, and inventory management system that is an effective alternative to carousels.

The BoxPicker is an efficient, space-saving, modular, and expandable pharmacy storage/dispensing solution. It provides secure and restricted access to medications and interfaces directly with hospital information systems to track inventory. The installation at The Methodist Charlton Medical Center not only gives the hospital cutting edge pharmacy automation, but will allow other customers a chance to observe the technology firsthand.

About Methodist Health System

Guided by the founding principles of life, learning, and compassion, Methodist Health System (Methodist) uses some of the latest medical technology and research to bring quality health care to individuals and families throughout North Texas. Methodist Dallas Medical Center, Methodist Charlton Medical Center, Methodist Mansfield Medical Center, Methodist Midlothian Health Center, and Methodist Family Health Centers are part of the nonprofit Methodist Health System,

swisslog

which is affiliated by covenant with the North Texas Conference of The United Methodist Church. Additional information is available at www.methodisthealthsystem.org.

Methodist Charlton Medical Center (Methodist Charlton) *3500 West Wheatland Road • Dallas, TX 75237 • 214.947.7777*

Located in suburban southwest Dallas, this modern teaching and community hospital has served the thriving community in far southwest Dallas County since 1975. It was one of the first hospitals in Dallas to use the Labor-Delivery-Recovery (LDR) concept, and conducts one of only four Family Practice Medical Residency programs in the area. Methodist Charlton's services include cancer treatment, cardiology, day surgery, emergency care, gastroenterology, intensive care, maternity, orthopedics, outpatient services, physical rehabilitation services, radiology, sports medicine, and urology.

About Swisslog

Swisslog is a global provider of integrated logistics solutions for hospitals as well as software and consulting services in the field of supply chain management. Swisslog's solutions optimize customers' production, logistics and distribution processes in order to increase flexibility, responsiveness and quality of service while minimizing logistics costs. With years of experience in the development and implementation of integrated logistics solutions, Swisslog provides the expertise that customers in more than 50 countries around the world rely on.
