Swisslog webinar to feature latest innovations in pneumatic tube systems for clinical laboratory professionals

Swisslog presents Free Webinar to Clinical Laboratory Professionals featuring Pneumatic Tube System Product Manager, John Kennedy

Denver, CO (PRWEB) April 25, 2008 - Swisslog will present "Mission Swisslog '08", a webinar presenting the latest innovations in pneumatic tube system transport for clinical laboratory professionals. This webinar is in lieu of a presentation planned for Clinical Laboratory Management Association's ThinkLab '08, which was cancelled this year.

The 30-minute live webinar, "Mission Swisslog '08" will be broadcast on May 1 at 3 p.m. EST. John Kennedy, Swisslog Pneumatic Tube System Product Manager will discuss the latest innovation in pneumatic tube system transport. Attendees may log in at:

<http://www.instantpresenter.com/missionswisslog1>.

Webinar attendees who complete the short survey after the presentation will receive a free flash drive and be entered into a grand prize drawing for a digital photo orb.

The world's leading provider of pneumatic tube systems (PTS), Swisslog systems increase the quality of patient care. Designed specifically for the healthcare environment, system

components such as the Ultra Station II and Security Access Doors allow users to send laboratory specimens, blood products and other critical patient care items quickly and securely. In addition, several carrier options are available to meet each lab's individual needs, including the BacStop Antimicrobial carrier, with silver ion anti-microbial agents molded within the body of the PTS carrier.

Swisslog offers a complete line of hospital material transport solutions to complement the TransLogic pneumatic tube system, including the TransCar automated guided vehicle, and the PillPick automated drug management system. Swisslog's advanced material transport systems and world-class pharmacy automation solutions allow hospitals to stay focused on quality patient care.

CLMA cancelled ThinkLab '08, scheduled for March 29 through April 1, 2008, after a tornado on March 14, 2008 severely damaged the Georgia World Congress Center. Swisslog is a long-time supporter of the CLMA and will continue to support the organization into the future.

About Swisslog

Swisslog is a global provider of integrated logistics solutions for hospitals as well as software and consulting services in the field of supply chain management. Swisslog's solutions optimize customers' production, logistics and distribution processes in order to increase flexibility, responsiveness and quality of service while minimizing logistics costs. With years of experience in the development and implementation of integrated logistics solutions, Swisslog provides the expertise that customers in more than 50 countries around the world rely on.
