Swisslog's TransLogic Counter-Top Station Offers Hospital Departments with Confined Space a Pneumatic Tube System Station Option

Denver, CO – Swisslog, a leading provider of automated material transport solutions for hospitals, has released a brochure on the TransLogic Counter-Top Station for pneumatic tube systems. The [Counter-Top Station](#) is a smaller pneumatic tube system station affixed to a customer-supplied counter-top—maximizing space utilization. The station offers the benefits of a full-size station in one compact unit. The I.Q. Control Panel supplied with the Counter-Top Station is compatible with the latest Swisslog technology products, such as Alert Messaging, WhoTube™ card access and RFID tracking.

A Multiple Receive Kit is available for the Counter-Top Station, allowing multiple carriers to be received into a basket installed beneath the counter-top.

To receive a copy of the TransLogic Counter-Top Station brochure, contact Healthcare Solutions at 1-800-764-0300 or email healthcare@swisslog.com.

About Swisslog
