Swisslog Recognizes Best Hospitals in *U.S. News & World Report* study

Denver, CO – Swisslog is pleased to recognize the 19 hospitals selected in the 2008 “Best Hospitals Honor Roll” announced by *U.S. News & World Report* in July. Swisslog, a leading provider of pneumatic tube systems and pharmacy automation solutions for hospitals, is proud to have installations in 17 of the 19 “Honor Roll” facilities.

According to the magazine’s website, data was analyzed on more than 5,400 medical centers to produce this year’s 16 speciality rankings. Only 170 were ranked in one or more specialties. To be in the top group of “Honor Roll” institutions, a hospital had to achieve high scores in six or more specialties.

Swisslog manufactures the TransLogic pneumatic tube system, the PillPick® automated drug management system and the TransCar automated guided vehicle system. Swisslog systems expedite the transport of supplies, medications and laboratory specimens. This allows hospitals to focus on patient care and efficiency needed to achieve excellence. To read about the *U.S. News and World Report* study, visit www.usnews.com and click on health.

About Swisslog
