Swisslog Announces Exclusive Agreement with TCGRx for Pharmacy Automation

Denver, CO. – Swisslog, a leading provider of pharmacy automation solutions for hospitals, announces an exclusive distribution agreement with TCGRx of Powers Lake, WI., to sell and service its portfolio of automation medication management products to the acute care hospital market in the United States.

The agreement is an integral component of Swisslog's strategy to expand the breadth of its offerings to hospitals of all sizes and all in-patient pharmacies, regardless of operating model.

The TCGRx products Swisslog will sell and service include:

- **High-Speed Automatic Tablet Packager:** This packager offers easy filling and refilling of medications for both unit and multi-dose packaging with a quick exchange of packaging material. The packager is scalable from 128 to 384 canisters as well as non-formulary items.
- **Compact Strip Packager** – An affordable, compact, high-volume packager for small to large hospitals.
- **Beacon high-density storage and inventory management solutions** with guiding light to minimize stocking and picking errors. Enables pharmacies to store 100% of formulary in half the space.

swisslog

- Tablet cutter – The tablet cutter enhances patient safety by ensuring a precise split of tablets in halves, reducing costs and inventory.

“Swisslog’s strengthened partnership with TCGRx expands our pharmacy automation solutions to include any size hospital, in both the in-patient or out-patient pharmacy. Our offering continues to focus on providing the safest and most efficient solutions available, enabling improved patient care while saving our customers valuable time and money,” says Ben Hinnen, Vice President of Swisslog Automated Drug Management Solutions.

About TCGRx

TCGRx offers pharmacy optimization across space, labor, and inventory. As demands on the pharmacy have become increasingly more difficult to manage, solutions have been offered to address the individual areas of need. TCGRx looks at all facets of the pharmacy to bring a total solution that addresses today’s needs while leaving options open for the future.

TCGRx offers some of the most reliable pharmacy automation on the market backed by a comprehensive design and workflow solutions analysis. Decades of experience proves that automation cannot be completely successful without a well thought out plan behind the installation. TCGRx was founded by some of the industry’s most experienced professionals with the goal of optimizing space, labor, and inventory. For more information visit, www.tcgrx.com.

About Swisslog

Swisslog is a global provider of integrated logistics solutions for warehouses, distribution centers and hospitals.
