Swisslog Adds Customer Support Position to Optimize Pneumatic Tube Systems

Denver, CO – Swisslog has added a position to its customer support department to facilitate hospitals in optimizing their pneumatic tube system.

The Sun Kim, who joined Swisslog in 2006 with the Automated Drug Management System department, will be working with pneumatic tube system clients to meet their needs for parts and accessories with an initial focus on carriers, station access doors, and alert messaging systems.

Swisslog's Alert Messaging option immediately alerts department users and engineering staff to any interruptions or failures in the system. Station Access Doors provide controlled access to stations, increasing the safety of pharmaceuticals and other sensitive items in transport and the privacy of patient information. Carriers are available with several options such as leak-resistant, color, antimicrobial, and much more. Contact The Sun Kim for more information at 1-800-525-1841 x7864 or by email at the.sun.kim@swisslog.com

About Swisslog

Swisslog is a global provider of integrated logistics solutions for warehouses, distribution centers and hospitals. Its comprehensive services portfolio ranges from building complex warehouses and distribution centers to implementing Swisslog's own software. In addition Swisslog provides intra-company logistics solutions for hospitals as well as software and consulting services in the field of supply chain management

Swisslog's solutions optimize customers' production, logistics and distribution processes in order to increase flexibility, responsiveness and quality of service while minimizing logistics costs. With years of experience in the development and implementation of integrated logistics solutions, Swisslog provides the expertise that customers in more than 50 countries around the world rely on.

Headquartered in Buchs/Aarau, Switzerland, Swisslog currently employs around 2,000 staff in 20 countries worldwide. The group's parent company, Swisslog Holding AG, is listed on SWX Swiss Exchange (security number: 1232462, Telekurs: SLOG, Reuters: SLOG.S). For more information, visit www.swisslog.com.
