

SWISSLOG HEALTHCARE

Relay®

Autonomous Service Robot

## Helping Staff. Delighting Patients. Enhancing Healthcare.

Relay® is a dynamic, low-profile autonomous robot that combines fast, secure delivery with a responsive, friendly human interface for reliable, more personalized services. Safe and secure, Relay delivers everything from medications and lab work to supplies and equipment throughout the hospital environment. Able to operate elevators and navigate busy hallways, Relay improves productivity and workflow while delighting everyone he meets.

## Features & Benefits

- Dynamic, safe navigation—moves gracefully through unstructured areas
- Nimble and adaptable—easily travels around tight spaces or remaps to find most direct path to the destination
- Trackable, predictable deliveries
- Lockable payload
- Small, light footprint
- Autonomous elevator operation
- Friendly, delightful personality

# Specifications

© 2018 Swisslog EN NAM 092018 ASF-200

## Dimensions:

Height 36in/92 cm  
Width 20in/51 cm

## Weight:

90lbs

## Speed:

.7m/s

## Communications:

WiFi  
LTE Verizon or AT&T

## Payload:

Volume: .75 cubic ft (.021 cubic meters)  
Weight Capacity: 10 lbs (4.5 kg)  
Security: Automatic Lock

## User Interface:

Display 7" touch screen  
Audio Stereo  
Lighting RGB LED base ring  
Cargo Lighting: Illuminated

## Runtime:

Continuous Four hours  
Charging Dock Floor mounted  
Dock & Relay 120V/3A 240V/1.5A

## Navigation:

Fully autonomous indoor navigation  
Obstacle avoidance  
Multi-floor navigation  
Elevator control  
Ability to ride in occupied elevators
